

Queer Liberation March 2023

**To limit the transmission of
COVID-19, we are implementing
the following policies...**

Includes language adapted from resources provided by PeoplesCDC.org

Select mask mandated areas:

In solidarity with those who are immunocompromised, have Long COVID, and others who wish to be in a fully masked environment, we will have a marshaled space at both the front of the rally and the march where face masks will be required.

We strongly encourage all QLM participants to take 4 simple safety measures:

- 1. Test before you go. If you test positive or feel sick, stay home.**
- 2. Wear a high-filtration mask at the rally and march. (Free face masks will be available.)**
- 3. Spread out. We need not stand shoulder-to-shoulder to show our solidarity.**
- 4. Test afterward, to ensure you're not spreading the virus.**

We keep us safe:

**COVID-19, like police violence,
disproportionately harms Black,
Indigenous, and other People of Color,
especially those who are also disabled.**

**We adopt COVID precautions to promote
accessibility, to fight for justice for the
most marginalized among us, and
because it's the right thing to do.**
